

Fairfax Imaging, Inc. Named to Software Magazine's 31st Annual Software 500

Software Magazine Ranks Fairfax Imaging as One of the World's Largest Software Companies

Tampa, FL, December 1, 2013 -- Fairfax Imaging today announced its inclusion in Software Magazine's 2012 Software 500 ranking of the world's largest software and service providers, now in its 31st year. Fairfax Imaging, Inc. was number 429 on the annual list published earlier this year.

"This is the second time that Fairfax Imaging, Inc. has been included in this list," remarked Michael D. Minter, VP of Sales and Marketing. "Our solutions that we offer continue to be well received by our markets and have allowed us to achieve continued growth. We are excited that our expansion allows us to be included on this prestigious list."

The 2013 Software 500, the 31st edition of the ranking of the world's largest software and services companies, targeting medium to large enterprises, their IT professionals, software developers and business managers involved in software and services purchasing.

Go to www.softwaremag.com and click on the link provided to see the 2013 Software 500 list, which was released first in the digital publication distributed in mid-September.

The ranking is based on total worldwide software and services revenue for 2012. This includes revenues from software licenses, maintenance and support, training and software-related services and consulting. Suppliers are not ranked on their total corporate revenue, since many have other lines of business, such as hardware. The financial information was gathered by a survey prepared by the staff of *Software Magazine*.

About Fairfax Imaging, Inc.
